

The image shows two side-by-side screenshots from the EasyN mobile application. The left screenshot is titled "Device List" and shows a list of two devices: "test[lybw.easyn.hk]" and "iptest[14.155.225.109]". A red arrow points from the "+" icon in the top right corner of the "Device List" screen to the "+" icon in the top right corner of the "Device Info" screen. Another red arrow points from the right-pointing arrow icon next to the "test" device entry to the "Local snapshot" button in the "Device Info" screen. The "Device Info" screen shows fields for "Favorite name: test", "IP address: lybw.easyn.hk", and "Port: 808". Below these fields is a "Local snapshot" button with a right-pointing arrow. A red arrow points from the "Local snapshot" button to a text box below it.

1. Click setting button , go into "device list " interface ↵
2. Click "+" icon, add camera ↵
3. Click "arrow " icon , go into camera snapshot read interface. ↵
..

Click local " snapshot " , view images from snapshot ↵
..

The image shows a screenshot of the "Snapshot Preview" screen. It features a list of two image files, each with a small thumbnail on the left and the filename on the right. The first file is "CH1-2012-08-01-14-21-48.bmp" and the second is "CH1-2012-08-01-14-21-58.bmp". Below the list is a text box with instructions.
